

16:40	17:45	<p>Pecha Kucha Session 01 The invisible health threat: short- and long-term impacts of air pollution</p> <p>Chair: Michelle Turner & Nasser Louali</p> <p>Presenting air pollution exposure and risk of autism: findings from ECHO cohorts - Alfred Obeidat Exploring impacts of air pollution and greenness on progression of latent and active tuberculosis from immigrants - Egla De Long Long-term exposure to Traffic-Related Air Pollution and Cardio-Specific Respiratory Hospitalizations Across 14 U.S. Sites - Adnan Antonia Parvati Short-term association between ambient ozone and onset of acute myocardial infarction of young patients: Results from the VISCOS study - Big Zhang Mortality impacts of NO2 emissions controls in Melbourne, Australia - Yongmei Chen Temporary Change in the Effect of Particulate Matter on Mortality: A Multi-City Multi-Country Analysis from 143 Cities Across 26 Countries - Yongmei Chen Our storms and emergency department visits in the southwestern United States, 2003-2016 - Howard K. Chung Characterizing indoor air quality associated with electric heating, cooling, and smart filtration appliances in disadvantaged communities in San Joaquin Valley - Katherine Ann Kearns</p>	<p>Pecha Kucha Session 02 Regulator Changes, Global Challenges, and Maternal Health</p> <p>Chair: Diana Alvarado & Josef F. Conroy</p> <p>Effects of maternal HIV infection on low live, low, and extremely low birth weight: a population-based study in Brazil - Icca Ferreira Da Silva Associations between Residential Proximity to Oil and Gas Development and Reproductive Outcomes of Pregnancy in a North American Precipitation Cohort - Mary D. Willis Social Analysis of Infant Mortality and Hazardous Sites across US States - Shelton J. Kujal Environmental Tobacco Smoke Exposure and Perinatal Health Outcomes in the United Arab Emirates: Inverse Analysis from The Mulkaan Study - Tim Loney Investigating the Air-Carriage Gas Blower Disaster and Adverse Birth Outcomes: A Case Examination Approach - Kimberly C Paul Hemostasis and Home Birth: Impact of Epidemic Heat on Delivery Outcomes in India - Amab K. Dey Prenatal and perinatal exposure to pesticides in utero and ACHD in childhood - Melissa Parfitt Evaluating the Multiple Health Effects of the Early Life Exposure from childhood to adolescence: An Outcome-Wide Approach - Agostino Nogaro Rida Prevalence of obesity in Ugandan and Brazilian children according to active breastfeeding duration and size-at-birth but not low-birthweight - Pinayya Sankar</p>	<p>Pecha Kucha Session 03 Environmental Inequalities and Public Health</p> <p>Chair: Richard V. Remigio, TSA</p> <p>Exploring the pathways linking prenatal and early childhood greenhouse gas exposure to asthma-related hyperactivity disorder symptoms during childhood - Laine Lopez Garcia Tree canopy cover and PM2.5 with/without asthma and low birthweight amongst children in the SEMMLA birth cohort study - Alexis J. Haidil Ecologic Study - Andrew V. Nguyen Risk-neighborhood associations between residential greenhouse hydrocarbon and blood pressure - Roy Yeager Residential exposure to green and non-photosynthesizing vegetation: comparative effects on academic performance in a longitudinal study of Australian children - Luke Kubba Green space, air pollution and mortality in a metropolitan area in Southern Italy: a health impact assessment study - Orazio Valerio Ciancio The role of greenness in vitamin D status cross-sectionally: observational evidence from the UK Biobank - Nicholas John Osborne Residential greenness and type 2 diabetes according to urbanity: findings from the CONSTANCE cohort (2012-2019) - Benedicte Jacquemelin Co-benefits of urban green interventions: a health impact assessment of the Green Venetian in Barcelona - Tamara Luegman The Effects of Neighborhood Greening on Influenza in the</p>	<p>Pecha Kucha Session 04 Spatial and Temporal Cancer Trends and Exposure Studies</p> <p>Chair: Charles H. Bell & Nicole Detert</p> <p>Spatial-Temporal Trends in Ovarian Cancer Outcomes in Los Angeles and Orange Counties, USA - R Carolina Villaverde Epidemiology of Artificial Light at Night and Fine Particulate Matter and Risk of Papillary/Papillary Thyroid Cancer - Nicole Detert Mortality from malignant mesothelioma in young adults: Italy, as proxy of environmental exposure to asbestos in childhood - Lucia Fazio Living barriers: acceptability and feasibility of HPV self-sampling for cervical cancer prevention in rural communities of Ecuador - Daniela Escamez Does tattoo exposure increase the risk of skin cancer? A population-based case-control study - Erinna Riad Usabudin Exploring time windows for UV protection bio-activity: natural compounds in the potential prevention of skin-cancer and other skin diseases - Pablo Jimenez Bonilla Ambient air pollution exposure and bladder cancer risk in a U.S. cohort - Janet A. Fisher Searching for the exposure to identify environmental chemical exposures for cancer risk in humans: the Southern Environmental Health Study - Wei Zhang Long cancer mortality attributed to residential ozone exposure in Spanish regions by sex: Application of a correction for dewing height - Melicia Pinaz Rios</p>	<p>Pecha Kucha Session 05 Chemical exposures and health outcomes</p> <p>Chair: Masha M. Tellez-Rojo & Mike Z. Ho</p> <p>Human pesticide exposure in Bolivia: A scoping review of current knowledge, future challenges and research needs - Jessika Barón Cuevas Predictors of ethylhexanone exposure during pregnancy among participants enrolled in the SEMMLA birth cohort study - Alexis J. Haidil Prenatal Exposure to Endocrine-Disrupting Chemicals and Fetal Liver Development: Findings from the FPP-3D Study - Daniela R. Stevens Current landscape of neurodevelopment and pesticides: A scoping review of methodology - Jennifer Elizabeth Reed Prenatal phthalate metabolism and childhood lung function in Mexico City - Caecilia S. Alcala Long-term postnatal exposure to air pollution and multiple vaccine antibody levels in children - Mike Z. Ho A Per- and Polyfluoroalkyl Substance Mixture Associated with Human Gut Microbiome: Novel Bayesian Hierarchical Zero-Inflated Negative Binomial Regression with Q-Composition - Haley E. Henson Prenatal exposure to SVOCs and impacts on childhood air infections - Elizabeth Bower</p>	<p>Pecha Kucha Session 06 Climate change, cancer, temperature and health in USA</p> <p>Chair: Stephanie Chelton & Marcela Tamayo Ortiz</p> <p>Associations Between Temperature and Primary Care Utilization in Philadelphia, Pennsylvania: A Time Series Study - Janelle R. Edwards The Modest Role of Air Pollutants in The Relation between Heatwaves and Mortality - Arif A. Weber Urban Heat Island Mitigation: Using Community Science to Understand Heat Dependencies and Impairment Cooling Solutions in the US and Internationally - Morgan Zibow Assessing the Impact of Air Quality and Heat on Recesal Physical Activity in School Children - Arif A. Weber The modifying effects of polypharmacy on heat-related kidney morbidity - Zachary M. Cnaan Outdoor Temperature and Dental Necessity Exposure in Green Tobacco Farmworkers - Marcela Tamayo Ortiz Unleashing urban heat: harnessing potential weather stations for enhanced daily mapping of heat stress across North Carolina - Eva Margosa Quantifying Indoor Thermal Exposure: A Physics-based Approach for Missing Heat-Related Risk - Chema Cyril Hampe Temperature extremes and mortality during summer months: National priors across the United States, 2010-2021 - Walter N. Cowan</p>	<p>Pecha Kucha Session 07 Environmental Chemistry and Health: Insights from Biomonitoring and Epidemiological Studies</p> <p>Chair: Paige Bonmarito & Kaitlyn McGraw</p> <p>Associations between Disinfection Byproducts and Birth Defects: Use of Relative Potency Factors - Michael Wright Breast cancer is associated with mixtures of organochlorine pesticides and metals in Mexican women - Angel Miriam Ortega Association of short-term exposure to ambient air pollution and weather conditions with deaths of displaced among U.S. Veterans - Alina Palano Association of gestational diabetes mellitus with trihalomethane transfer ratios of various classes of environmental chemicals - Jordana Leander How well do short-term PFDA serum samples represent long-term exposure? - Scott B. Setzler Nileal and manganese faecal concentrations associated with distance to oil drilling site - Arbor Quist</p>	<p>Flash Oral Session 11 Environmental epidemiology and one health: global perspectives</p> <p>Chair: Samuel Cal & Nestor Jolly</p> <p>Expanding Public Health Monitoring: Discoveries from an Emerging Watersheds-Based Epidemiology Initiative in Costa Rica - Luz Osorio Jimenez The field release of Wolbachia-infected <i>Aedes aegypti</i> and dengue transmission: changing effect of climate variables - Wendee Wu Emerging pathogens with antimetabolites: Clostridiales difficile and <i>Shigella</i> spp. in piglets: anti-antibiotic flow - Osar Rogberg One Health in the Philippines: A Review and Educational Analyses of One Health in the Philippines: A Review and Educational Analyses of One Health in the Philippines - Max A. Zarzar Bermudez Bary Valenzuela Ecological factors, population immunity and Covid-19 incidence - A global Multi-Country Multi-City study - Denise Fournier Weather Variability Drives the Spatiotemporal Distribution of Visceral Leishmaniasis in Brazil - Quinn K. Adams Mice and mosquitoes in drinking water and irrigation as a route of human exposure - Max A. Zarzar Bermudez</p>	
17:45	18:15	<p>Symposium 08 Bayesian models for Environmental Health</p> <p>Chair: Garyfallos Konstantinos & Robbie Parks</p> <p>Spatiotemporal Distributed lag non-linear models - Marcos Ojalte Zamorano Domestic indoor exposure and childhood cancer incidence in 722 counties in the United States, 2001-2018 - Matthew DeGroot Modeling the effect of ambient air pollution exposure on children's mental health outcomes - Ali Riley Bayesian model selection in England: a population-level study between 2002-2020 - Connor Gascogne Using the Bayesian Net Parameterizable Ensemble (BNE) for more accurate and precise identification of disparities in PM2.5 exposure - Marlene Anne Koumoutorgos</p>	<p>Symposium 09 Strengthening environmental surveillance to advance health-promoting policies</p> <p>Chair: Yi Lu, Hassan Ali Dalvi Shirazi & Sumi Mehta</p> <p>Promoting child health and environmental equity through a children's environmental health information system - Qiang Wang Strengthening government surveillance and clinical responses to heat exposure in India - Marie Elena Arias Coronel Leveraging air quality monitoring data in Jakarta, Indonesia - local impact assessments to guide government regulations - Ginnyer Byrnes Role of frontline health professionals in improving air quality and climate health surveillance in India - Amrith Kumar Chandan</p>	<p>Traditional Oral Session 08 Epidemiological studies in air pollution studies</p> <p>Chair: Samuel Estajik & Xiaorong Shan</p> <p>Estimating Air Quality Exposure in 1940 and 2010 For Future Application to Health Analyses - Xiaorong Shan Increasing Capacity to Assess Air Pollution Outcomes in Atlantic Canada - Tao Kin Siu Associations between PM2.5, Air Quality and economic impact of ambient PM2.5 - Kwibwa Anand Enhancing Exposure Estimates in Urban Environments Integrating Mobile and Fixed Site Black Carbon Measurements to Bridge Spatiotemporal Gaps - Ching-Man Chan Personal Exposure Assessment to Particulate Matter among school children in Karnataka Capital City of Uganda - Barnali Dasgupta</p>	<p>Traditional Oral Session 09 Environmental factors and reproductive health</p> <p>Chair: Ellen Wells & Raphael Arku</p> <p>Exposure to traffic-related air pollutants in verified coyle donors and male recipient partners in relation to fertilization and embryo quality - Burak Lapin Extreme ambient heat and outdoor seasonal sedation in the continental United States, 1996 to 2018 - Andrey J. Daskalov Associations between Phthalate Exposure and Ovarian Oestrogen Biomarkers in the Risk of Recurrent Pregnancy Loss - Ph Chiung Wang Early-life lead exposure is associated with cognition in late adulthood - Ruby C. Hickman Genetic susceptibility to acute mortality and exposure to short-term air pollution - Ornela Kumer Lemic Drought and Debris: Investigating the Link Between Severe Weather Events and Suicide Mortality in the U.S. - Azer W. Asadi</p>	<p>Traditional Oral Session 10 Environmental exposure and mental health</p> <p>Chair: Ellen Wells & Raphael Arku</p> <p>Associations between traffic noise and incident dementia in UK Biobank - Enoch Haywardman Accounting for Active Spaces in Assessment of the Environmental Exposure and Suicide Risk - Frederick W. Lurmann Association between long-term exposure to fine particulate matter and mental health in women from Southeastern Louisiana, USA - Ashia Hark Early-life lead exposure is associated with cognition in late adulthood - Ruby C. Hickman Genetic susceptibility to acute mortality and exposure to short-term air pollution - Ornela Kumer Lemic Drought and Debris: Investigating the Link Between Severe Weather Events and Suicide Mortality in the U.S. - Azer W. Asadi</p>	<p>Flash Oral Session 12 Chemical Exposures and Child Development</p> <p>Chair: Shivani Li & Viki Rebello</p> <p>An exposure approach of linking multiple environmental toxicants with early kidney injury in the pregnant women - Ming Tang Wu Dispositional air pollution (PM2.5, NO2, O3) exposure and the risk of preterm birth: a systematic review and meta-analysis - Shawn Lee Plasma mineral concentrations and fetal growth trajectories: a prospective multi-site Asian cohort study - Yi Ting Ong A prospective study of per- and polyfluoroalkyl substances (PFAS) and women's cognitive function in midlife - Azuzo Invernizzi Prenatal residential air quality and childhood neurobehavioral outcomes: A nationwide birth cohort follow-up approach - Shu Li Julie Wang Early life metal mixture exposure and both outcomes - PAPA Project - Paul - Nancy Demarco Prenatal exposure to persistent organic pollutants and body mass index trajectories from birth to age 12 - Christine Neuenberg Autism Behavior in children with prenatal exposure to arsenic, from a cohort study in the city of Rio de Janeiro - Maria Karoline Silveira Nunes Associations among urinary polycyclic aromatic hydrocarbon biomarker concentrations and birth outcomes in LFEODES - Janard Eaton</p>	<p>Flash Oral Session 13 Prenatal and post-natal exposure to air pollution and children's health</p> <p>Chair: Rafael Burati & Rachel Tam</p> <p>Early life ambient ozone exposure and the development of asthma and wheeze in children - Logan C. Dearbone Exposure to ambient air pollution during early life and risk of childhood Ewing sarcoma in a California case-control study (1983-2015) - Cassandra J. Clark Characterizing sources of ambient children's exposure to particulate matter in a Sub-Saharan African city - Benjamin Barratt Prenatal Ambient Air Pollution and Gestational Factors: Maternal Exposure and Fetal Growth - Shelina Pappalardo Prenatal exposure to fine particulate matter (PM2.5) and rate of neurodevelopmental delays: a national cohort study of Medicaid recipients - Mari Wakschlag Predictors of perinatal exposure to fine particulate matter, black carbon, and carbon monoxide among pregnant women in Riverside - Patricia Karavande Prenatal and childhood exposure to persistent organic pollutants: Impacts on neurodevelopmental outcomes among Mexican adolescents - Stacy Hoffman Prenatal and childhood exposure to persistent organic pollutants: maternal and neurodevelopmental outcomes in young adulthood - Brenda Ekmekci The longitudinal association of prenatal and childhood exposure to bisphenol A and phthalates with emotional and behavioral problems through adolescence - Lilly Meyer</p>	<p>Flash Oral Session 14 Impact of exposure to environmental contaminants on children's outcomes</p> <p>Chair: Juwel Rana & Carmen J. Marati</p> <p>Outdoor area as a potential mechanism linking prenatal phthalate exposure to cognitive development in infancy - Stephanie Eck Rural and urban disparities in prenatal environmental phthalate and paraben exposures in the ECHO cohorts - Michael S. Bloom Psychosocial Biphysics and Cognitive Decline among Hispanic/Latino Adults: Effect Measure Modification by Sex, Body Mass Index, and APOE ε4 Allele - Humberto Parada Jr. Associations of urinary polycyclic aromatic hydrocarbon (PAH) metabolites and their mixture with thyroid hormone concentration during pregnancy: a repeated measures study - Seungyong Park Early-life exposure to phthalates, parabens and parabens and preschool children lead to insulin in the SEPAGES cohort - Marion Oudiz Association of prenatal urinary phthalate metabolite levels on the newborn metabolome and neurodevelopmental outcomes among Mexican adolescents - Stacy Hoffman Prenatal and childhood exposure to persistent organic pollutants: maternal and neurodevelopmental outcomes in young adulthood - Brenda Ekmekci The longitudinal association of prenatal and childhood exposure to bisphenol A and phthalates with emotional and behavioral problems through adolescence - Lilly Meyer</p>	<p>Virtual Session North & Latin America 2: Environmental exposure and children's health</p> <p>Chair: Midred Watson, TSA</p> <p>Studying Air Pollution Impacts on Child Respiratory Health: The Role of Breaseweed and Residential Greenery - Sarah Pears Route impact of air pollution on infant mortality in the San Joaquin Valley, California: A fine-grained case-control study - Stacy Gilmore Prenatal Exposure to Ambient Air Pollution is Associated with the Gut Microbiome during the First 2 Years of Life - Elizabeth A. Hulsebosch Associations of pre- and postnatal air pollution exposure with toddler RNA signatures in human milk extracellular vesicles - Aligail Gayford Poor housing conditions are associated with neighborhood asthma, childhood asthma emergency department visit rates in Austin, Texas - Zachary Li Association between wild vascular plant species richness and preterm birth in urban areas: a retrospective cohort study in Southern California - Margot Li Association of Card Blood Concentrations of Pseudothionin Substances and Benzophenone with Autism Traits at Age Seven in Singaporean Children - Neelan Gohm</p>
18:15	20:00	Women's Networking and Social Even								
20:30	23:45	EMEA Event/Workshop only
